AROUND TOWN

3rd Street Project

The 3rd Street Project between Clay and Bowie, which includes a retention pond, is projected to be finished around October 10, 2015. The purpose of the retention pond was to hold back water from the park area in case of a major downpour. The retention pond was part of the original design and was NOT required by the State of Wyoming nor the Federal Government.

Horton's Corner

On September 10, 2015, the Wyoming Business Council approved the grant application for the Town of Chugwater to purchase Horton's Corner. The grant contract still needs to be approved by Town Council, and a price will need to be negotiated if the Council wants to proceed. An environmental study will also be required before the purchase can be made. Discussion on the grant will be discussed at the October Town Council Meeting.

Reminder!!!

Utility payments are due by the close of business on the 25th of each month.

Payments received after the 25th constitute a \$5 late fee
